MYSTERY SMOKE—White smoke seeping from big cracks in the earth and lazily rising up to 200 feet high and smelling of sulphur, drew sightseers to a natural depression near Pecos, in far West Texas. Oil Company geologists who inspected the site expressed opinions a big deposit of peat—partly rotted vegetable matter which burns like low grade coal when dried—had caught fire. There was no explanation how it started. An unidentified man in sp. cts one of the cracks from which smoke is rising.

Jaycees Sponsor Drive as First of Major Projects

Hamlin will enter the national Cleanest Town Contest in the 5,000 population class sponsored by the National Clean-Up, Fix-Up, Paint-Up Bureau, according to Jerry Howard, president of the newly organized Hamlin Junior Chamber of Commerce, who will sponsor the local activity.

Announcement came as the result of studies made by the Hamlin Board of Community Development in regard to better conditions under which communities attract commerce and industry.

Each year cities and towns compete in eight population categories, vying for the top trophies. Principal basis for judging the National Cleanest Town Contest is degree of improvement and the number of citizens participating.

Howard called upon every citizen to join the clean-up efforts, to take before-and-after pictures, and report his accomplishments to campaign headquarters, the BCD office.

"Let's bring a trophy to Hamlin to show the state and nation what a progressive community Hamlin is," Howard urged.

Hamlin Jaycees will distribute forms for individual reporting. These forms must be filled out by the individual and returned to the BCD office not later than June 30, 1960. The month of May has been designated official National Clean-Up, Paint-Up and Fix-Up Month.

Three Rural Baptist Churches of Area Hear Missionaries in Unified Course

The three rural Baptist Churches of Fairview, Corinth and Hanna met together for a five-day school of missions and study course April 2 through 7. An average attendance of 125 was reported by members of the groups.

On Sunday morning each church met and had Sunday School, then all gathered at Corinth to hear the first speaker of the series. This was Rev. Ray Ferguson of Twin Falls, Idaho, missionary worker among the Mormon people of that state.

Sunday evening Rev. Clyde Cook, pastor of Trinity Baptist Church in Stamford, was the speaker at Hanna.

Rev. Craighead, Baptist missionary for 30 years, was the speaker at Fairview. Rev. Craighead had worked in Roumania many years until the mission field was closed. He then went to South America, where he has worked in Paraguay since 1945. Speaking five languages fluently, he has had opportunity to witness to many nationalities.

Mrs. Roger Duck, wife of a missionary, delivered the message on home missions at Corinth Tuesday evening. Her emphasis was on the Spanish speaking people of our country, as she and her husband have attended language school in Costa Rica and at present are awaiting call to Colombia as missionaries.

One of the highlights of the week was the message at Fairview from Sam Hider, Cherokee Indian from Northeastern Oklahoma. Rev. the church where they were meeting.

Thursday evening after the concluding services at Hanna, refreshments of coffee, pops and cookies were served in the fellowship hall to the congregations of the three churches.

The 28-year-old soldier is the

Do you brood over fond hopes unrealized until a chain, link after link, is fastened on each thought and wound around the heart?

Nature intended you to be the fountain spring of happiness, and not the traveling monument of despair and melancholy. Be cheerful!

Of Such Woman Is Made

What is the perfect woman? The fanciful recipe of the Hindu god who created woman is as follows:

Take the lightness of the leaf and the glance of the fawn, the gaiety of the sun's rays and the tears of the mist; the inconstancy of the wind and the timidity of the hare; the vanity of the peacock, and the softness of the down on the throat of a swallow. Add the harshness of the diamond, the sweet flavor of the honey, the cruelty of the tiger, the warmth of fire and the chill of snow; the chatter of the jay and the cooing of the turtledove. Melt and mingle these ingredients and woman is the result!

Editorial of the Week

All of the aspirants to seats in the Texas Legislature and the national Congress are now busy persuading citizens of their respective districts that they can represent the people better than their opponents. For many of these lawmaking posts there will be heated contests. There will be liberals pitted against conservatives; labor partisans against management favorites; middle-of-the-roads against candidates to the right and to the left. There will be candidates for and candidates against such measures as increased pay for school teachers, sales taxes—both selective and general—income taxes, and no taxes at all.

Whether highway users will or will not get the adequate highways they pay for will be an issue in few, if any, of the campaigns.

In a way this is as it should be. There should be no controversy or partisan differences over an issue as vital and necessary to the well-being of so many Texas. Yet over the years there have been serious controversies and they have been aired—not on the stump during election campaigns—but later, in the capitols where the laws are actually made.

The net result of this practice has been to make the operation of an automobile the most heavily taxed necessity in Texas, accounting for about one-third of the entire tax revenue supporting state government during recent years.—The Texas Parade.

Every day...every meal...every farmer feeds this crowd

In 1960, every farmer will produce food aplenty for 25 people—27,375 square meals in all! This record productivity is now possible with the help of science, farmer know-how, chemicals, and electric power.

Yet, electricity, which has helped triple food production in only 25 years, was just a dream for most farmers as late as 1935. People, living in the country, were scattered . . . supposedly too costly to reach with light and power.

To get electricity, rural people organized into non-profit local groups, borrowed money at interest from

the REA and built their own lines. Today, nearly 1,000 locally-owned Rural Electric Systems operate 1½ million miles of line serving 16 million Americans.

As workers leave farms for other jobs, farmers are using more electricity to produce better food at lower cost. This means lower grocery bills for you and promises adequate food even when our population doubles in the years ahead.

Best of all, owner-users bear the cost of rural electrification. Already they've paid more than \$1 billion in principal and interest on their \$3½ billion loans.

Several High School Music Careers to End with Concert by Bands Thursday

Several Hamlin High School music careers will come to an end with the performance next Thursday evening, April 21, of the annual spring band concert, to be presented in the high school auditorium.

The concert, which will be the first "Parade of Music," will begin at 7:30 p. m., and will feature all of the bands of the Hamlin schools, according to Tim Jones, director.

The fifth grade beginners' band will start the program off, followed by the sixth grade band, the Junior High School band, and after a short intermission, the High School Band.

All the bands of our school have built a fine record over the past year, Jones reports. The Junior High group won firsts at the Rotan festival; the high school band was first at the Sweetwater festival; and the other groups have distinguished themselves in other various ways.

The 12 seniors who will play their last time at a public performance are Geneva Brinegar, Otha Brown, Barbara Cheshier (president), Peggy Dodd (reporter), Rebecca Ferguson (major), Phyllis Hollis, Delores Killian (majorette), Lana Lancaster, Cynthia Patterson (majorette), Ann Richey (drum major), Carol Joe Simpson and Charles Scott.

The senior portion of the program will be highlighted by the presentation to the outstanding senior of the first John Philip Sousa band award. The award

consists of a beautiful trophy, pin and award certificate. The winner will also have his or her name permanently engraved on a bronze plaque to be kept in the high school band hall.

Official qualifications of the recipient should have demonstrated and the method of selection are stated on the certificate itself, which reads: "In recognition for outstanding achievement and interest in instrumental music, for singular merit in loyalty and co-operation, and for displaying generally those high qualities of conduct which school instrumental music strives to impart, and by nomination of fellow band members and confirmation of band director and school officials."

Any senior member of the band who fulfills the above qualifications is eligible for the Sousa award, says Jones.

The program is to be a varied panorama of music ranging from marches to overtures. Director Jones will play a trumpet solo with band accompaniment, and the evening will be rounded out with the playing of John Philip Sousa's "Stars and Stripes Forever" march, which will feature Cynthia Patterson on a piccolo solo.

Tickets for the concert now are available from any band student. Adult tickets are 50 cents, students are 25 cents, and pre-school children will be admitted free if accompanied by their parents.

Allan Shivers Gives Support to Jack Cox

Former Governor Allan Shivers broke a three-year silence on Texas politics last week at Houston by publicly endorsing former State Representative Jack Cox, the lone opponent of Governor Price Daniel, in his campaign for a third term.

Cox, living at Breckenridge, was a candidate for Congress from this district in 1952, losing the nomination by less than 200 votes.

FLAMING RICE DRIER—Fifty firemen, hampered by lack of water, battled nearly two hours to bring the raging blaze under control at a rice drier plant at Altair. The drier and stored grain, which were a total loss, were valued at \$350,000 to \$400,000.

Formal Statement on Tax Office Race Made By Larry L. Holmes

Larry L. Holmes makes the following formal statement about his candidacy for tax assessor-collector.

In announcing my candidacy for tax assessor-collector of Jones County, I am very mindful of the responsibility connected with the office. I will be grateful for the opportunity to serve you and will always conduct myself in such a manner that will be worthy of public trust.

I was born in Stonewall County, where I attended school. I married the former Louelle Buntin of Stamford, and in 1934 we moved to the Stamford area to make our home.

We have two fine children—Billy A. Holmes, who is now married and lives in Jones County, and June Holmes Smith, who is now married and lives in San Antonio.

I belong to the First Baptist Church and have served on the board of deacons for the past 18 years. I also have served as music director for the past several years. This experience has taught me how to meet the public and to be of public service.

While living in the Hamlin area for seven years, I served as a director of the Farmers Coop Gin. And after moving to Anson, I was employed by the Anson Gin.

Our home is now four miles northwest of Anson on the Walter Love farm. We have lived there

since 1947, when we purchased the farm.

I am qualified to fill the office of tax assessor-collector, and if the people see fit to elect me, I will endeavor to give prompt and courteous service. Everyone will be treated in a business like manner, and I will always be available to help with any problem concerning taxes.

I will strive to see each of you before the May 7 primary. However, I would appreciate your taking this as a personal solicitation of your vote and influence. Yours sincerely—Larry L. Holmes.

The shoulders of a borrower are always a little straighter than those of a beggar.—Ernest.

Vocational Nurses of Area Meet in Anson for Program on Dental Surgery

Dental surgery was the topic when members of the Licensed Vocational Nurses Association of District 54 met in the coffee shop of the Anson Hotel March 31 for a regular session. Invocation was given by Mrs. Arzelle Voss.

Dr. Harry L. Haynes of Stamford was presented by Mrs. E. Rainwater. An interesting and informative discussion on "Pre and Post-Operative Care of the Dental Surgery Patient in the Hospital" was given by Dr. Haynes. An

open question and answer period on dental problems was held following the discussion. New and old pictures of dental procedures were passed for inspection.

After refreshments were served and a period of fellowship enjoyed, Mrs. Rainwater, association president, presided over a short business session. Among other items of business on the agenda, the organization unanimously voted to write a letter to the state office endorsing the Dr. Allen Andrus family as the Family of the Year. Plans for the April banquet were put into motion, and the meeting was adjourned.

Attending were Dr. Harry L. Haynes of Stamford; Mmes. Nora Stephenson, Geneva Baucum, Elva Lou Cox, Martha Scott, Martha Moody, Vivian Flynn, Eunice Rainwater and Arzelle Voss, of Anson; Mmes. Hazel Hildon, Toad Brown, Erma Wallace, Thelma Maddox and Leona Tiechelman of Hamlin.

You can always tell a well informed man—his views are the same as yours.

MARRIED IN DOUBLE RING RITUALS at Abilene on Friday, April 1, were Cherry Kay Pritchard (above) and Jerry Boyd Crowley. Bride is the daughter of Mr. and Mrs. Clyde P. Pritchard of Tuxedo, and young Crowley's parents are Mr. and Mrs. Cliff Crowley of Hamlin.

Nylon Whitener Important Aid When Laundering White Wearing Apparel

Snowy white is making fashion news. From drip dry casuals to pretty party organdies, fashion decrees white and more white. The smartest way to wear white is from head to toe. But, to be at your sparkling best, it is also wise to know a thing or two about cleaning white apparel.

Before attempting to launder an article, read the manufacturer's directions to determine whether the garment is washable. If so, use the soap or detergent that is best for a fine or sturdy fabric.

Proper Sun Glasses Will Protect Eyes from Damage by Glare

Exposure to bright sunlight may result in serious and long lasting impairment of the eye's sensitivity to light. Often this weakens vision.

Sun glasses will protect the eye from such strong light, either direct or reflected. For this reason, the lenses of sun glasses should be free from defects such as a minute pitting on the surface, insufficient absorption of invisible light rays, and excessive light transmission.

To avoid eyestrain, headaches, and unusual fatigue caused by lack of such protection, sun glasses should be large enough to cover the whole field of vision. Good sun glasses will help conserve your eyesight.

Sun glasses should be worn whenever you are exposed to bright sunshine or outdoor glare.

White articles should be laundered only with white items. This is especially important when washing nylon, which very easily picks up color. Thorough rinsing is just as important as washing.

Do not use chlorine bleach on drip dry resin finishes. If, by mistake, you do, in most cases a color remover and nylon whitener will remove the stain which was caused by bleach.

To cure dingy nylons, use a color remover and nylon whitener, available at most drug and variety stores and super markets.

Rejuvenate the clothing by first washing it. Next fill a vessel with hot water, then put it on the stove and begin heating. The container should be large so that the article will not be crowded.

Empty the color remover into the water and put in the wet garment before the color remover dissolves. Stir gently and constantly and continue heating the water until it is just simmering.

Whiteness will be restored in from 10 minutes to an hour, depending on how gray the nylon has become. Remove the article and rinse thoroughly in plenty of warm water.

New Suggestions for Fixing Potatoes Will Help Dress Up Dish

If potatoes have lost their appeal to your family, do something about it. The next time you serve a temptingly delicious roast, add flamour to your meal by serving stuffed baked potatoes. You'll be well rewarded for the extra time required to prepare them.

Cut large baked potatoes in half lengthwise as soon as you take them from the oven. Scoop out the inner portion and mash it. Season the potatoes with a little butter or margarine, salt and pepper. Stir in hot milk to moisten the filling.

Beat the mixture until it is smooth and fluffy and spoon it back into the potato shells. Brush the tops with melted butter or margarine and place the potatoes in a hot oven (425 degrees) until they are lightly browned.

For variety, add diced cooked meat, flaked salmon or grated cheese to the mashed potato.

J. P. Cornelius, 70, Retired Farmer, Succumbs Friday

Final rites for another old-timer of the Hamlin territory, John Pascal Cornelius, 70-year-old retired farmer, were conducted Friday afternoon. The pioneer who came to this section in 1901 died last Thursday morning at the Hamlin Memorial Hospital following an illness of several years. He had been a patient at the hospital for two weeks.

Born April 9, 1889, at Corinth, Mississippi, he was the son of Mr. and Mrs. J. W. Cornelius. He moved to Texas as a young man and had settled in the Hamlin area in 1901. He married the former Mary Etta McClusky, who died in 1910. On May 30, 1915, he married the former Susie Edna Wood. The family farmed in the area for many years, having retired several years ago.

Funeral services were conducted at the First Baptist Church, officiating was Rev. Lenard A. Hartley, pastor, assisted by James Wood.

Burial was in the Neinda Cemetery, south of Hamlin, under the direction of Hamlin Funeral Home. Pallbearers were Ronnie Fleniken, Forrest Maberry, Charles Curry, Jerry Nichols, Bobby Nichols and Herman Wood.

Surviving the pioneer are his widow, Mrs. Susie Edna Cornelius; five daughters, Mrs. Charlie (Mary) Early of Hobbs, New Mexico, Mrs. Ross (Opal) Dillard of Dallas, Mrs. T. W. (Ruby) Fleniken of Floydada, Mrs. Clinton (Bernice) Maberry of Dallas and Mrs. Floyd (Robbie) Shaver of Seymour; five sisters, Mrs. I. E. Firemen Will Attend Throckmorton Confab

Several members of the Hamlin Volunteer Fire Department and their wives are due to be in Throckmorton today (Thursday) to attend the semi-annual convention of the Midwest Firemen's Association, according to Bryant Conner, president of the group. The sessions will continue through tonight.

Since several key firemen were out of pocket for practice, entries in the pumper contests have been withdrawn this year, declares Jack White, fire chief. For many years Hamlin contestants have mixed it up with contestants from other towns in the area.

Congressman Burleson Says Balanced Budget Seems Less Likely Each Day

On July 1 an automatic increase in the postage on third class bulk mail goes into effect, unless the Post Office Department decides otherwise, points out Congressman Omar Burleson of Anson in his weekly news release of The Herald from Washington. The release continues:

It is supposed to have the effect of more nearly equalizing the cost of "throw away" mail as related to first class.

There is concern, however, that the drop in the volume of business may reduce revenues to the Post Office Department. For example, direct mail advertising was the only major advertising medium to suffer a drop in volume in 1959. First reports indicate a decline of three per cent from a \$1,800,000,000 business in 1958.

The old saying that most anything can be proved by figures is applicable to that \$4,200,000,000 surplus called for in the presi-

dent's budget. As June 30, the end of the fiscal year, approaches, it looks less likely. As indicated earlier in this column, the figure was based on a number of "ifs," which include the raising of postage rates on first class mail and a further increase in the gasoline tax. Neither of those contingencies are likely to materialize. Incidentally, even if the budget should have a surplus this year, it would still mean that, according to the figures, our government should show a deficit of \$14,800,000,000 during the last eight years. This figure results from taking \$7,600,000,000 in the years when there has been a surplus from \$22,400,000,000 overall deficit.

Incidentally, the present budget adds 30,000 new workers to the government payroll.

Another item which may further contribute to the unbalancing of the budget is the concern over the number of air crashes which have caused several hundred deaths since the first of the year. Funds to modernize major airports, and particularly flight control assistance, are likely to be increased from \$63,000,000 to about \$200,000,000 or more. The Federal Aviation Administration is attempting more strict regulation on the flights of certain commercial aircrafts, and may even ground some types of planes.

Legislation and regulations evidently are not keeping up with airplane developments. It is pre-

DePriest School Wins First Place in Literary District

DePriest Colored School of Hamlin placed first in literary events in the Interscholastic League district meet held Saturday at Colorado City for Class B schools of the Central West Texas area.

The following schools were participants and were awarded the named points: Hamlin, first with 137 points; Brady, second with 94 points; Breckenridge, third with 58 points; Colorado City, fourth with 35 points; Coleman, fifth with 12 points; Munday, sixth with 10 points; and Graham, seventh with 7 points.

First place winners from Hamlin were: J. R. Davis, arithmetic; Estelle Willis and Sarah Oliver, debating; Quinzelle Willis, junior declamation; Dorothy Butler, story telling; Sarah Oliver, piano solo; James Pinkard, male solo; Juanita Douglas, Bertha Douglas, Alberta Gilbert, Joanne Johnson, James Pinkard, Robert Jones, J. W. Owens and Hardy Lee Nabors, mixed octet.

Second place winners from DePriest were: Alberta Gilbert, female solo; Bertie Lee Brown, essay writing; Walter Franklin, extemporaneous speaking.

Third places were awarded to these from Hamlin: Jack Breedlove, senior declamation; Robert D. Davis, arithmetic; Etta Jean Martin and George Ray Austin, senior spelling; Sandra Covington and Douglas Powell, junior spelling; Alice Faye Ervine and Uella McPherson, sub-junior spelling.

First place winners will go to Prairie View College on April 23 to participate in the state meet.

The faculty and students of DePriest School ask The Herald to express their sincere appreciation to all patrons for contributions toward the success of the school at the district meet.

In the old days, the man who saved money was a miser; nowadays he's a wonder.

dicted that within eight years commercial aircraft will be traveling between 1,300 and 2,000 miles per hour—Texas to New York or California in less than one hour. There is strong indication, according to the experts, that the accidents which have occurred with the turbo-prop Electra were caused by excessive speed at high altitude. What happens to controls in the air and on the ground with planes traveling faster than the speed of sound? There is also the problem of the sonic booms, with which there has been considerable experience in Central West Texas.

Estimated Two from County Included in April

An estimated two draftees from Jones County will be included in the April call for men.

The state quota for Texas draft boards in April calls for 270 men, Colonel Morris S. Schwartz, state selective service director, said Tuesday.

The April call is the state's share of a national quota of 6,000 men, all for the Army.

Colonel Schwartz also announced pre-induction physical and mental examinations for approximately 550 men in April.

The April quota will be filled with men who are at least 22 years old on April 1, 1960, with the exception of volunteers or delinquents, who may be younger.

Jump School Finished By Edgar D. Shields

Army Private Edgar H. Shields, 19-year-old son of Mr. and Mrs. Vincent D. Shields of Hamlin, recently was graduated from the 101st Airborne Division Jump School at Fort Campbell, Kentucky, according to a release to The Herald from the base.

Shields received his paratrooper wings after completing three weeks of intensive ground and aerial training which included five parachute jumps.

He entered the Army last September and completed basic combat training at Fort Ord, California. Shields is a 1959 graduate of Hamlin High School.

Pecan Budding Clinic Set at Funston Farm

Pecan budding, grafting and orchard management will be the topics of a demonstration on the Raydell Lefever farm, located two miles south of Funston Tuesday, April 19, according to Kirby Clayton, county agent.

R. G. Hancock, horticulturist with the Extension Service of Texas A. & M. College, will be on hand to discuss any problem growers may have with pecans or other fruit and nut crops.

The meeting will begin promptly at 10:00 a. m. and will be completed by noon time. Hancock will be on hand for personal consulting in the agent's office that afternoon from 1:00 till 2:00 o'clock.

All interested persons are urged to attend this meeting.
